Rotating Equipment Performance (REP) solutions

Predictable performance in an unpredictable world

To achieve cash efficiency, improve top-line and sustainable growth, it is vital to capture predictable and enhanced performance from your manufacturing assets. SKF's Rotating Equipment Performance (REP) model combines our engineering expertise and products with new-age digital technologies that can help you enhance and predict your assets' performance and reduce your CapEx. investments.

Improved
output

Safer
operations

Performance
risk sharing

Reduced
costs

Building an Atmanirbhar Bharat

SKF has a long-standing presence in India, with operations in the country since 1923. As a manufacturer of an extensive product range comprising bearings, seals, power transmission, lubrication, maintenance products, as well as remote condition monitoring and services, SKF is committed to achieving self-reliance for the domestic industry by creating a strong manufacturing ecosystem. Today, SKF in India has a significant footprint comprising of 6 manufacturing facilities, 12 offices, over 300 distributors and an employee base of over 2400 dedicated professionals.

SKF's pan India presence has made it possible to serve its customers with high-performing and sustainable products and solutions that have set industry benchmarks as well as contributed to 'Atmanirbhar Bharat Abhiyan'.

With a rich global experience of over 110 years, SKF is continuously focused on developing innovative solutions for companies across automotive and industrial sectors. Over the years, SKF has evolved from being a pioneer in self-aligning ball bearing manufacturing company to a knowledge driven

engineering company helping customers achieve sustainable and competitive business excellence.

India Distribution Center

A milestone in our continued journey towards customer centricity

- Increased stock availability
- Online tracking facility
- Faster delivery turnarounds
- Cutting-edge infrastructure
- Error-free support and service
- LEED certified logistics centre

Comprehensive solutions from SKF

SKF SEAL JET DD MACHINE

- High speed, flexibility and customer proximity with low investment
- Satisfy approximately 80% of standard industrial application demands

SKF Food Line ball bearing units – Blue Range

- Completely sealed
- Lubricated for life
- Corrosion resistant
- Food grade components

SKF ball bearing units – UC range

- Higher reliability through secure SKF locking system
- Widely available via the SKF distribution network
- Superior quality and long service life

SKF four-row cylindrical roller bearing

- High load carrying capacity
- High wear resistant
- Enhanced operational reliability
- Easy And reliable mounting
- Lower total cost of ownership

High performance INSOCOAT bearings

- Fully interchangeable design
- Stable electrical performance
- Robust during handling, storage and operation

SKF Agri Hub Disc Plough

This cost effective and ready-to-mount solution for Disc Plough applications comes with a robust sealing system to withstand highly contaminated environment and completes the competitive range of SKF Agri Hubs that are ready to mount and are virtually maintenance free

SKF UC insert

- Easy to order, easy to replace
- UP to 16% better holding power on shafts
- Increased availability
- Interchangeable with JIS* standard bearing
- Improved productivity

Condition monitoring solutions from SKF

It helps you determining the condition of machinery while in operation to reduce the possibility of catastrophic failure

Power transmission products and solutions from SKF

Helping your business reduce the total cost of ownership in the long-run

Bearings, units and housings from SKF

Expertise in manufacturing virtually every type of ball and roller bearing

Sealing solutions from SKF

Customized for your system performance

Maintenance products from SKF

Help your bearing achieve its maximum service life and increase your plant productivity and efficiency by applying the right maintenance practices and using the correct tools

Lubrication solutions from SKF

Help you realize the true potential of lubrication

SKF Cooper Split Bearings

Designed for today, tomorrow and the years after

Remote diagnostic services

Enabling world-class predictive maintenance for any industry, anywhere worldwide

Machine condition data is collected, either with an on-line system or with hand-held devices by skilled personnel – your own, a service partner or by SKF. Certified SKF analysts interpret and report on the data from Remote Diagnostic Centres using the most advanced, cloud-based technology and proprietary SKF signal analysis techniques. These subscription based services provide access to machine data and to expert SKF diagnostics from anywhere, any time.

Key benefits:

Cost savings

Avoid capital investments for hardware and software.

Global access

View reports or actual vibration data plots any time day or night from any location.

Data integrity

Automatic data uploading minimizes human error and establishes consistency and standardization throughout your organization.

Expert analysis

SKF knowledge enables us to apply 110 years of accumulated experience to diagnose collected data and make recommendations for actions.

Are you sure it's genuine?

Do you think that you may have accidentally bought a counterfeit SKF product?

The SKF Authenticate app includes clear instructions on how to photograph the product and automatically submit a request, all in one process. Dedicated SKF experts then review the information, authenticate the product and reply through email.

How to use authenticate application

Scan to download the SKF Authenticate app

Google
Play Store

Apple
App Store

The new SKF Authenticate 2.0 comes with scan code feature for scanning QR code on SKF product carton and distributor certificates.

If you have any questions, contact SKF at genuine@skf.com

Extreme temperature bearings

Plain bearings

Tough job?

Get a tough bearing.

New upgraded SKF Explorer self-aligning roller bearings can provide up to twice the service life as the original under tough operating conditions

Combining clean and homogenous high-quality steel with an improved heat treatment, new upgraded SKF Explorer bearings have a superior balance between hardness and toughness. This advancement gives upgraded SKF Explorer self-aligning roller bearings a higher degree of wear resistance, enabling as much as twice the service life as the original, in applications where there are high levels of contamination or poor lubrication conditions.

All standard SKF spherical roller bearings, CARB toroidal bearings and most spherical roller thrust bearings have now been upgraded to the SKF Explorer performance class.

For more information on the product and actual test results, download the brochure from www.skf.com/upgrade.
